

Aquaparc Valais - Switzerland

Client : WhiteWater West Industries Ltd

MSJ Commission :

3D Slide Path Geometry
Slide Support Structures

This project is an example of the large water slide installations MSJ have been involved in.

Valais is an 'all weather' facility where the slides start and finish within buildings although the main parts of the slides are external.

MSJ were responsible for the 7 main slides shown here together with 4 smaller slides within the leisure pools.

The illustrations show the 3D model created by MSJ during the design process.
