
Swarcliffe Road – Housing Development – Harrogate

The project involved the redevelopment of the former Harrogate Hospital site at Swarcliffe Road for Crest Homes Northern Ltd. The majority of the mature perimeter trees were to be retained. MSJ organised a geotechnical investigation and tree survey in order to design and detail appropriate foundations in the clay ground. In addition to this MSJ carried out the structural design of the houses and apartment blocks.

Client: Crest Homes
(Northern) Ltd

Architect: Downes Illingsworth
Partnership Ltd

MSJ Commission: Structural design and
detailing

Melia Smith & Jones were commissioned to design and detail the sub and superstructure elements of the buildings.
