The project involved the refurbishment and re-building of the factory showroom and the re-cladding of the warehouse façade. A new entrance canopy was formed and a new perimeter boundary wall/fence incorporating powered gates for both service and customer entrances were provided. The interior works contained new office space and meeting rooms in addition to the sales areas, all which were completed to a high client specification.

Client: Dilbag Cloth House
Contractor: Lotus Construction
Architect: Watson Batty

MSJ Commission:
Structure and Civils design and detailing
