With the theme of a 'Wild West Town' the development comprised over 30 retail units of various sizes.

Leisure and catering facilities were provided throughout the site including a butterfly house and restaurants.

Parking for over 600 cars and buses was provided along with access and service roads.

Main Contractor :

TURNER Design & Build

MSJ Commission :

**Foundations & Ground Slabs
Masonry & Timber cladding
Roads & Car Parking
Foul & Surface Water Drainage**

The site, which was adjacent to a large marina, was originally reclaimed land behind the dock wall and had been used for warehousing and port facilities.

As part of the attraction an old fishing trawler was lifted onto the site. The trawler required special props and foundations in order to allow continuing maintenance of the timber hull which is subject to shrinkage whilst out of the water.
