## St. Stephen's RC School – Skipton

---

**Client:** Diocese of Leeds  
**Architect:** Wales Wales & Rawson

**MSJ Commission:** Structure and Civils  
design and detailing

The project consisted of 2 separate buildings, which were to replace an old school building. One was a single storey “Early Years” building and the other a two-storey block with 5 classrooms, I.T. suite, library and offices. The school grounds were terraced to provide level playing fields and playgrounds. This involved the construction of retaining walls and ramps.

Melia Smith & Jones were commissioned to design and detail the sub- and superstructure elements of the buildings and external retaining walls.
