
STAIRCASES

Wembley Stadium VIP Areas

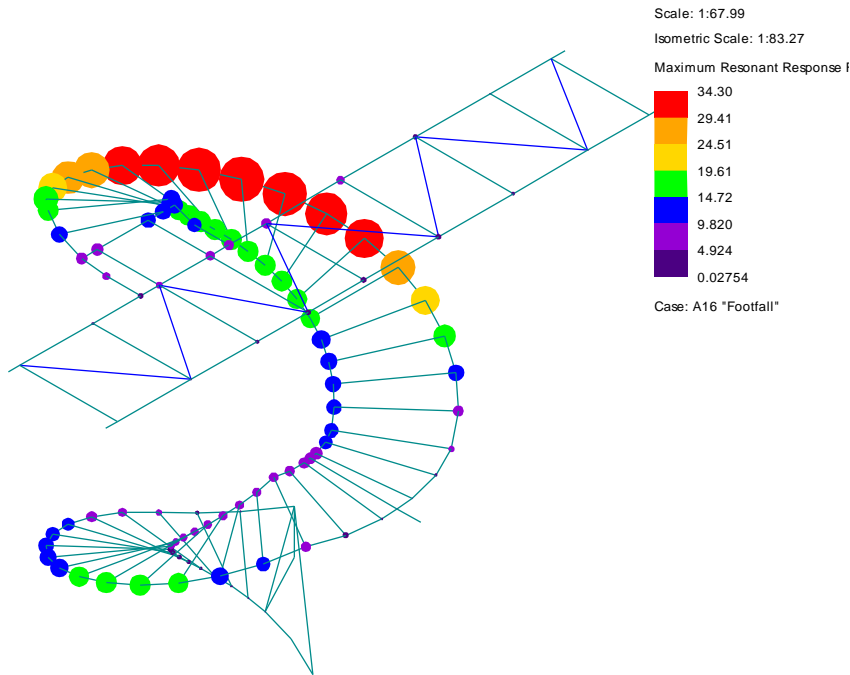

Melia Smith & Jones has amassed considerable experience in the design of architectural staircases for prestigious projects throughout the UK.

Our philosophy is to deliver the architectural and engineering requirements of the scheme, whilst considering the cost and ease of fabrication.

Response Factor Analysis

Our design service features 3D modelling and the production of calculations for fabrication and Building Control submittal. We can investigate dynamic behaviour, including response factor analysis, which is increasingly being stipulated by clients.

Recent projects include:

- Heathrow T5
- Wembley Stadium
- Hull University
- St. Pancras
- The Quadrant, Regent Street
- Low Mills, Addingham
- Swiss Re (the Gherkin)

Heathrow Terminal 5
